

Contempt Charge Threat Hurlled At Mystery Witness

New York, Aug. 31 (P)—"J. Peters," described as head of the Communist underground in America, preached that the United States "must be destroyed," a witness at his deportation hearing said today.

New York, Aug. 31. (P)—A threat of congressional contempt charges against Peters yesterday after he refused to answer key questions of a House subcommittee, Peters was identified by ex-Communist Whittaker Chambers as the No. 1 man in the Communist underground in this country.

The House un-American activities committee recommended contempt charges against Peters yesterday after he refused to answer constitutional grounds to tell the probes what they wanted to know.

The witness is the first to be threatened with contempt for refusing to answer questions in the House committee's spy hearings. A dozen or more witnesses, refusing to say whether or not they were Communists, have cited that sec-

tion of the constitution which says a man can't be forced to testify against himself.

When the hearings shifted here yesterday from Washington, Peters refused to answer questions about Communists.

Probe Is Balked

Peters was summoned before the committee after Chambers, an admitted former Communist and now an editor of Time magazine, named him as "director of an underground spy apparatus" which Chambers said operated in the federal government in 1934.

Peters' refusal to answer questions balked the subcommittee's attempts to fill gaps in testimony about Red spying.

Conviction by a jury on a contempt charge could bring a jail sentence, Rep. McDowell (R-Pa.), chairman of the subcommittee, and Rep. Nixson (R-Calif.), the other member at the hearing, agreed that Peters should be cited for contempt.

McDowell said he was warning "the Communists of America, these present and those not present, that for the first time in the history of the United States government that government is going to face the question of the Communist party in the United States."

Named Stevens

The long-sought Peters—54 years old, a native of Czechoslovakia and now a resident of New York—was named as a congressional subpoena as he appeared for a deportation hearing early in the day.

He was subpoenaed under the name of Peters, but identified himself as Alexander Stevens.

Although it was balked by Peters, the subcommittee heard testimony yesterday by Chambers that he got a \$6,000-a-year "boon-doggone" job with the government in 1937 through Communist influence.

Chambers said he was being paid as a Communist underground courier at that time.

Cellophane Patches Used With Success On Human Arteries

By Howard W. Blakelee

(Associated Press Science Editor)

New York, Aug. 31 (P)—The use of pieces of cellophane as patches to prevent blowouts in the great artery of human beings is announced in the current August issue of the American Heart Journal.

The artery is the aorta, main channel carrying blood from the heart to the entire body. Sometimes it bulges out on one side, exactly like an inner tube that is about to blow.

The potential blowouts which were prevented by cellophane patches were caused by syphilis, and were described by Dr. J. K. Poppe of Portland, Ore.

Six persons were treated. In each case the aorta was bared by surgery, and a piece of cellophane cut to fit over the bulge. Where possible, the cellophane was wrapped entirely around the great blood vessel. The six are all alive and the operation was done on some of them two years ago.

The cellophane patch in every case, Dr. Poppe reported, eased pains that had been due to throbbing and pulsating of the bulge. The patch also caused growth of dense tissues in the aorta and those parts of the chest on which it rested. These new tissues resemble scars. They strengthen the weakened part of the artery and give it support against further bulging. Dr. Poppe said that only one kind of cellophane (polythene) has this tissue-building effect. When these bulges are not wrapped, they are likely in time to break like a tire blowout and kill the patient.

Draft Registration In State Is Smooth Except In Detroit

Lansing, Aug. 31 (P)—The first day of the nation's peacetime draft in Michigan went smoothly except in Detroit, the state Selective Service headquarters reported today.

Col. Glenn B. Arnold, state draft director, said failure of some volunteer registry officials to appear resulted in lines of waiting applicants at some points in Detroit.

Col. Arnold said the delays would be eliminated by today, the second day of the draft registration.

He reported that elsewhere in the state registrants were handled promptly and that in most cases the local boards and their workers had substantial periods of idleness.

Wallace Faces New Troubles In South

Charlotte, N. C., Aug. 31 (P)—Eggs and tomatoes again were tossed at Henry Wallace as he attempted to address a crowd of 2,500 at the McKlenburg courthouse here today.

Charlotte, N. C., Aug. 31 (P)—Henry A. Wallace, his southern campaign trail splashed with raw eggs and ripe tomatoes, marched on today toward more segregation troubles.

"We shall go on," Wallace said through a staff member who reported the Progressive party's presidential nominee's determination to continue his tour of the south.

Charlotte and Asheville were the major points on the schedule today—his third day in this state—with stops at a number of smaller cities en route.

Charlotte's police chief, Frank N. Littlejohn, promised jail for anyone who threw anything at Wallace here during his speech from the courthouse steps.

Although determined to continue, the former secretary of agriculture from Iowa displayed anger and disappointment yesterday as he was pelted with eggs and ripe tomatoes and prevented by cops and callous from delivering his messages.

Stopped entirely from speaking and splashed with debris at Burlington, Wallace grasped a bystander by the arm as he turned to his car.

"Am I in America?" He asked. "Get your hands off me," the unidentified man growled and gave the candidate a slight push.

Again at Greensboro, his clothes stained with egg yoke and a shell sticking to his head, Wallace cried:

"I don't mind being hit by eggs and tomatoes, but they would be more useful being fed to children."

"The faces I have seen distorted by hatred are of people for whom I have in my heart profound compassion, because most of them have not enough to eat."

Laugh At Him

There was laughter and more boo's.

At High Point, eggs and tomatoes again were hurled.

And at last night's rally at Winston-Salem, Wallace was booed long and lustily as he stood in the rain and attacked the Marshall Plan declaring:

"Only with an understanding with Russia can we avoid another war. We (the Progressives) are fighting on the side of the Lord. The crowd estimated at 2,500—about three-fourths of them Negroes—set up opposing chants of "we want Wallace" and "down with Wallace" at one time during his speech. The party's gubernatorial nominee, Miss Mary Price, could not be heard above the boo's as she introduced Wallace.

TRUMAN ASKS 'FAIR PLAY'

President Truman asked "Fair Play" today for Henry A. Wallace, Progressive party presidential candidate who has been pelted with eggs, booed and harassed on a North Carolina speaking tour.

Through press Secretary Charles Ross, Mr. Truman sent word to reporters that he considers the treatment given Wallace "A Highly UnAmerican Business."

He said Wallace is "entitled to say his piece."

Long Family Watches Vote In Louisiana

It Will Tell Whether Demos Are Happy

New Orleans, Aug. 31 (P)—Louisiana Democrats say with their ballots today whether they like what they got when they called the Long family back to political power.

The controversial policies of Gov. Earl K. Long dominated the campaign between Russell Long, 29-year-old son of the late Sen. Huey P. Long and nephew of the governor, and Judge Robert F. Kennon of the state court of appeal. They seek election to the two-year unexpired term of the late Sen. John Overton.

Congressional investigators kept an eye on the polls. William E. Murray, representing the house committee on campaign expenditures, said voters "in a great many places" had expressed fear of retaliation if they opposed the state administration.

Rep. Edward Hebert from New Orleans, a candidate for renomination with the blessing of the Long faction, immediately took issue with Murray. He said he planned to telegraph a protest to Washington that Murray was invading states' rights. Murray replied that he was proceeding under congressional authorization.

While the Senate campaign between Russell Long and Kennon overshadowed in interest other races in today's Democratic primary election, the Long issue also played a part in the other senatorial contest.

Sen. Allen J. Ellender, for years a Long faction leader, seeks renomination for a third term over the opposition of Rep. James Domengaux, a vigorous anti-Long campaigner, and Charles G. Gerth, New Orleans attorney.

Young Long, a Baton Rouge attorney, helped draft the legislative program his uncle drove through the legislature in the whirlwind opening of his four-month-old administration.

52 In Los Angeles Succumb To Polio

County Has Had 1,225 Cases Since Jan. 1

Los Angeles, Aug. 31 (P)—The infantile paralysis outbreak has soared to 52 deaths in Los Angeles county, with 272 patients confined today in the General hospital, 32 of them in respirators.

Dr. Sidney B. Clark of the polio-metis coordinating council reported that the county has had 1,225 cases since Jan. 1, with 595 of them in August alone. City Health Officer George M. Uhl said he will not request postponement of school opening, Sept. 1, however. He said such measures in the past were not successful and that in 1946, when school opened, polio declined.

At Corona Naval hospital, where he was transferred after a polio attack in Los Angeles, Curtis (Buz) Dall Boettger, director of the late President Roosevelt, was reported in excellent condition. Doctors said no evidence of paralysis has appeared.

U. S. Traffic Deaths Slightly Below 1947

Chicago, Aug. 31 (P)—The nation's traffic deaths for the first seven months this year totaled 16,309, four per cent below the 17,073 for the similar period in 1947, the National Safety Council said today.

There were 2,700 traffic fatalities in July, the council said, as compared to 2,780 in July, 1947, a drop of three per cent.

The council said the sharpest death reductions reported this year are in the north Atlantic, south Atlantic and Pacific coast states.

Russians Release 12,520 Japanese For Repatriation

Tokyo, Aug. 31 (P)—The Soviet Union released another 12,520 Japanese for repatriation from Siberia, the Kuriles and other areas during the week ended Aug. 26, Far East command headquarters announced today.

It brought the total repatriated from Russian-controlled areas to 788,909. Since the war's end, 6,013,062 Japanese have been returned to the homeland from all points.

Funeral Services For Hughes Today

New York, Aug. 31 (P)—Funeral services for Charles Evans Hughes were held at 1:30 p. m. (EST) today at Riverside church.

The casket of the former chief justice of the United States was moved at noon into the lofty main body of the church after resting in the nave for several hours.

The Rev. Harry Emerson Fosdick, rector emeritus of the church, conducted the services.

CIO Trying To Aid President Without Losing Leftwingers

Washington, Aug. 31 (P)—The CIO's politically-split executive board today faced its toughest campaign puzzle in eight years—how to endorse President Truman without losing important left-wing unions.

The 51-member group met yesterday but only skirted the subject. It adopted—unanimously—a legislative program very close to that Mr. Truman asked of the 80th Congress.

But at least eight unions—including the powerful United Electrical Workers and Harry Bridges' West Coast Longshoremen—were lined up for Henry Wallace and his third party candidacy last January when the executive board last took up the CIO's political stand.

CIO President Philip Murray said it could be "assumed" that the board would endorse a presidential candidate at today's meeting. Because the CIO has been so closely committed to the same objectives as Mr. Truman, there was little doubt that he would get the nod rather than Gov. Thomas E. Dewey, the Republican nominee.

But how the usually-diplomatic Murray would accomplish the endorsement without an out-and-out rift with the Electrical Workers, Bridges, Ben Gold's Fur and Leather Workers and others, remained to be seen.

A remote possibility would be for the unions led by Wallace supporters to "take a walk" for the duration of the campaign. There were few predictions of such a course, however.

John L. Lewis, first president of the CIO, stepped down in 1940 because the late Franklin D. Roosevelt went election to a third term. Lewis had favored Republican Wendell Willkie, and promised to quit as CIO chief if Roosevelt was reelected.

Murray told a news conference last night the executive board never took a formal vote in 1940 but was painfully split by the fight between Roosevelt and Lewis.

Military Governors Hold Only One-Hour Meeting In Berlin

By The Associated Press

Russian and western military governors of Germany met in Berlin today for the first time in five months but adjourned within an hour with no statement on the blockade or the rival currency issues.

They will meet again, possibly tomorrow. An American who attended the session today said "it depends on what you call amicable," when asked if the meeting was agreeable.

The nine Kremlin talks of the last month between Russian Foreign Minister Molotov and Premier Stalin and the envoys of the U. S., Britain and France led to the Berlin conference, which may continue a week. The state department in Washington said the military governors were discussing measures to lift the Berlin blockade and to solve the currency dispute.

Teen-agers Drown; Step In Deep Hole

Point Pleasant, N. J., Aug. 31 (P)—An Elizabeth woman, a widow six months lost her two teen-age sons in a swimming accident yesterday.

The boys, Frank, 13, and Carmen, 12, sons of Mrs. Louise De Gaetano of 954 De Hart Place, Elizabeth, were drowned in the Metedeconk River at nearby Adamston while on a picnic outing.

Last seen alive playing on a raft in shallow water, they apparently stepped into a deep hole in the river, police said.

World Waits Outcome Of Moscow Talks

Red Renew Demands For Change In Rich Ruhr

Berlin, Aug. 31 (P)—The Russians continued needling Berlin's anti-Communist city government today while Germans awaited word on the progress of Moscow four-power talks about Germany.

The official Soviet news agency reported a meeting of Maj. Gen. Alexander Kotikov, the Soviet Berlin commandant, with a delegation of "workers" who blamed "war mongering" in Western Berlin and promised to keep up demonstrations against the city council. Last week there were two Communist-led assaults on Berlin's city hall.

The "workers" also added their voices to the Soviet-sponsored chorus for withdrawal of all occupation troops from Germany and the formation of a "democratic" national government with its capital in Berlin.

In Moscow, where another East-West meeting was held in the Kremlin yesterday, an authoritative source said the only bar to a procedural agreement on the Berlin deadlock was insistence by a Western power on technicalities and phrasing.

Close To Agreement

The informant did not name which of the Western powers was referred to, but said this insistence, which has been evident on several occasions, is the only thing that is holding up a four-power communique on the talks.

He added that there is a good change of agreement this week.

The Western powers were reported very close to agreement on how to go about the problem of dealing with the Berlin situation. This did not mean agreement had been reached on the issues involved, however.

This is the 60th day of the Soviet blockade.

In Berlin, Tagliche Rundschau, official organ of the Soviet military administration, renewed demands that the coal-rich Ruhr be placed under four-power control.

Neutral Zone

"The Ruhr industry is not a matter for Bizonia, but always has been of concern to all Germany," the paper said. It declared the Potsdam agreement provided that the four powers jointly exercise authority on general German questions.

"The Soviet news agency said the 'workers' were received by Kotikov at the 'urgent request' of the communist-dominated 'free trade union movement' of East Berlin.

The delegation 'learned with indignation' of an appeal by the city council to create a 'neutral zone' where the government could meet without repetition of last week's invasions, the agency said.

It also suggested that only after the city council 'openly gives an account of its two-years activities' should new city elections take place in Berlin.

Investigators Seek Answer To Air Crash That Took 37 Lives

Winona, Minn., Aug. 31 (P)—Investigators sought today to determine whether lightning caused the fatal crash Sunday of a Northwest Airlines passenger plane during a severe electrical and wind storm.

Thirty-seven persons including three crew members died as the Minneapolis-to-Chicago plane, a Martin 2-0-2, cracked up in a wooded ravine on a Mississippi river bluff at nearby Fountain City, Wis. Last of the bodies were removed yesterday.

Howard Rackow, a farmer, told Coroner Henry F. Stohr at Fountain City that he saw lightning strike the plane "and the ship started down." A neighbor, Mrs. Charles Guenther, reported she saw pieces of the liner falling before it plummeted into the ravine.

117 REGISTER ON FIRST DAY

Ralph Olsen Re-elected Draft Chairman

A total of 117 men registered in Delta county on Monday for the new draft list, it was announced this morning by the local board office, located in the American Legion building, 716 Ludington street.

Ninety three men registered at the local board office, four at the Paper Mill, four at the Birds Eye five at Nahma, three at Rock seven at Bark River and one at Stonington.

Registrations at Gladstone will be delayed a week because of inability to secure volunteer registrars. Gladstone men may register at the local board office in Escanaba or they may postpone registration until next week when registrars will be available at the registration center, located at the Gladstone city hall.

Other registration centers are at the town hall in Bark River, the Manla River school in Rock, the Ray de Non office in Nahma, the town hall in David River and the Birds Eye and Paper Mill plants in Escanaba in addition to the local board office.

Men born in 1923 are registering today and tomorrow and men born in 1924 will register Thursday and Friday.

Men who are unable to register on the day assigned for their age group will be permitted to register on other days more convenient for them. In general, however, men who cannot register on either of the days assigned to their age group should register in advance of those days.

The local board held its organization meeting recently, reelecting Ralph Olsen of Escanaba as chairman. R. M. Hieby of Escanaba was elected secretary of the board.

It is anticipated that approximately 2,000 men between the ages of 18-25, inclusive, will register in Delta county during the three week period.

Prospective registrants must know their correct birthday and if they were in service since Sept. 16, 1940, they also must know their service serial number, the date of entry and date of discharge from service. This information can be secured from discharge papers. Also registrants who have been rejected for service should know the date that they were rejected.

Voters To Get Something New In Ballots Sept. 14

Michigan voters in the primary election Sept. 14 will receive but one ballot, with the Republican party ticket on one side and the Democratic ticket on the other. It is the first time the "two-faced" ballot will be used and it will require some fancy folding to assure that the voter's choice of party will remain secret to him and him alone.

Before the "secret" primary election law was adopted several years ago it was necessary for the voter to declare his party affiliation by requesting either a Democratic or Republican ballot. Then two ballots were issued, one for each party. One was marked by the voter and counted, the other was folded by the voter and placed among the blanks.

In the Sept. 14 primary there will be but the one ballot and

the voter will, after voting for the party of his choice, fold the ballot so it will not reveal his party affiliation. You cannot split your ticket in the primary, and if you vote for candidates on both tickets your ballot will not be counted.

Deliver Ballots
Election supplies, including 13-125 ballots, are being delivered to township and city clerks in the county by County Clerk J. Theodore Ohlen.

A school of instruction for all members of election boards will be held in the court house at 2 p. m. Sept. 8, conducted by the county clerk and Prosecutor J. Clyde McGonagle. The members of the election boards are entitled to pay for the time in attendance at the meeting, the same as if they were at work on the election board, the county clerk said.

In the primary election the voters will nominate candidates for state, legislative and county offices. In addition to the qualified candidates, the voter may write in the names of those whose names are not printed on the ballot. The tickets of the two parties are as follows:

Republican Ticket
Governor—Kim Sigler.

14. Governor—Eugene C. Keyes. U. S. Senator—Homer Ferguson.

Congressman, 11th district—Charles E. Potter.

State Senator—Harold P. Lindsay (Escanaba), William A. Ellsworth (St. Ignace), Joseph A. Sturgeon (Gladstone).

Representative, Delta district—Roy A. Jensen.

Prosecuting attorney—Alger W. Strom.

Sheriff—John J. Sharkey, Harold O. Finman, Mason C. Meyer, Paul J. Creten.

County clerk and register of deeds—Elmer St. Martin, Werner A. Olson.

County treasurer—Charles W. Magnuson.

Coroner—C. Arthur Anderson.

Democratic Ticket
Governor—Victor E. Bucknell, Burnett J. Abbott, G. Mennen Williams.

14. Governor—John W. Connolly, Victor Targonski.

U. S. Senator—Frank E. Hook. Congressman, 11th district—Violet LaVergne Patterson.

Representative, Delta district—Einar Eugene Erlandsen, Myron W. Legg, Arnold T. Rossow.

Prosecuting attorney—J. Clyde McGonagle.

Sheriff—William E. Miron. County clerk and register of deeds—J. Theodore Ohlen.

Coroner—Kevill Murphy, Otto S. Hult.

Air Parcel Post To Begin Sept. 1

With the inauguration of nationwide—worldwide air parcel post September 1, the United States can boast of the most modern and expeditious delivery service in the world, according to Postmaster Regina W. Cleary.

The new highly specialized airborne service, enacted into law by the 80th Congress, will afford patrons of more than 42,000 post offices in America and its possessions unexcelled shipping facilities. Transit time will be reduced to a fraction of that required by other modes of transportation.

Postmaster Cleary pointed out that air parcel post packages will receive the same particular consideration shown air mail in routing. In addition, identical doorstep delivery will be given to air parcel post as is afforded other forms of mail, making the airborne mail service unique in every respect.

She added that distinct air parcel post stickers, printed in red, white and blue and bearing the likeness of a winged package with the earth's globe underneath, will soon be available without cost at the Escanaba postoffice to apply to outgoing packages.

"With a scheduled plane taking off or landing within the United States on an average of every seven seconds around the clock, and an overseas-bound plane leaving our borders every 30 minutes, we stand ready to give our patrons the fastest parcel post service offered anywhere," Postmaster Cleary said.

While international air parcel post service has been available from the United States and its possessions for several months, domestic airborne service is being launched for the first time in history.

State Opens Bids On Au Train Road Surfacing Project

The state highway department today at its U. P. branch office in Escanaba opened bids for the non-slip surfacing of 2.31 miles of the Au Train road, connecting M-38 and M-94 in Alger county. The bids will be forwarded to Lansing for final determination and the awarding of a contract for the work.

Bidders were:
I. L. Whitehead, Sault Ste. Marie, \$8,906.60, low bidder.

Alpine Construction company, St. Ignace, \$10,072.85.

The new surface is to be applied over the present gravel surface of the road that is used extensively by tourists and for the hauling of forest products.

GOP Map Detailed Advertising Drive

Emphasis On Ferguson, Dewey, Warren, Sigler

Lansing, Aug. 31 (AP)—Key men in the state Republican party today got ready a detailed advertising campaign for the fall general election.

Newspaper, billboard, radio and placard advertising will be used to extol the merits of the state and national ticket, it was decided.

The conferees agreed to provide separate billboards for Governor Sigler and U. S. Senator Homer Ferguson, and another series for the Dewey-Warren national ticket. Sigler said the committee would furnish Lt. Gov. Eugene C. Keyes "some" billboards.

Newspaper advertising will feature Dewey, Warren, Ferguson and Sigler, the group decided.

Both Ferguson and Sigler will be on the air separately once or twice a week during October via state-wide radio hookups for campaign talks.

Literature and booklets will be used to boom the remainder of the state ticket to be chosen at the state G.O.P. convention in Detroit Sept. 25.

Blacktop Surfacing Completed on 14th

The black-topping of South 14th street from 10th avenue to the intersection of Lake Shore Drive, a distance of .6 mile, has been completed by a city crew, it has been announced by Loren Jenkins, city engineer.

The improved street, coated with asphalt, provides an effective means of diverting a portion of Lake Shore Drive traffic from 10th street.

But not until some nine and a half million men 18 through 25 have filled out the questionnaires by September 19 will selective service officials be able to complete the job of classifying this vast collection of American youth.

Most of the 25-year olds and those registering today and tomorrow are expected to be included in the exempt section because of previous service or dependency ratings. Selective service officials have indicated that the bulk of future draftees will come from the 22 and 23-year old groups due to register later this week.

The Army — which is getting all the November inductees — is expected to ask for another 10,000 draftees in December, later stepping up the pace to about 30,000 a month.

Secretary of Defense Forrestal in announcing the Army's first call yesterday said the Navy and Air Force are counting on filling their manpower quotas with volunteers, at least through next June.

The opening day of registration brought only scattered reports of organized opposition to the peacetime draft revival. About a dozen youths who said they were "peace makers" put on a demonstration in Columbus, Ohio.

DELTA POTATO CROP IS GOOD

Some Blight Is Reported And Control Advised

Although there are a number of fields with some blight and a few that have been severely hit, the potato crop in Delta county this year is expected to be good with yields comparable with those of last year, it was reported today by J. L. Heirman, county agricultural agent.

The number of potatoes (the "set") is not as heavy as in 1947 but the size will run larger, the county agent predicted. Delta county has a total of approximately 2,200 acres in potatoes, about the same as last year.

It was in 1947 that Frank Falks of Baldwin township won the Michigan potato championship with a yield of 794.9 bushels an acre.

The county agent pointed that in fields that have been severely hit by blight to the extent that the crop will not increase in yield, he recommends that the owners spray the blighted fields with a vine killer to kill the blight spores.

On fields where there is only a touch of blight, the owners should continue to spray. Instead of spraying every seven or eight days, however, the spray should be applied every five days until the time the frost kills the vines. The use of a vine killer is recommended at that time.

"It may be wise for some farmers whose fields are touched with blight, and where the tubers have already reached sufficient size, to kill the vines now to prevent the spread of blight," the county agent said.

The crop from fields in which there is some blight should be allowed to dry thoroughly before the tubers are put in storage if that is at all possible, Heirman added.

The potato harvest is expected to start about the middle of September, after the first killing frost.

State to Consider Complaints Against Its New Deer Policy

Lansing, Aug. 31 (AP)—Complaints against Michigan's new state-wide deer season will be considered by the State Conservation Commission Wednesday and Thursday at Higgins Lake.

The commission reported it had received formal complaints from Cass, St. Joseph and Oakland counties as well as scattered individual protests.

The commission last month ordered the entire state opened to deer hunting on the grounds the deer herd in Southern counties was becoming too large. In the counties south of the usual deer hunting area nimrods may use only shotguns.

In the years between 1840 and 1950, more than 200,000 immigrants annually entered New York harbor.

Approximately 6,500 Indians still live in New York state, on eight reservations where tribal customs are largely observed.

THE WINNERS—Roger Horchner, Carol Ingebreten and John Kennedy were the winners in the boys and girls fishing rodeo held at Sand point Saturday under the sponsorship of the Escanaba Junior Chamber of Commerce and Better Fishing, Inc. They were awarded fishing tackle as prizes.

ROCK TO HAVE BIG FESTIVAL

Lions Sponsoring Labor Day Celebration

Rock, Mich.—The Rock Lions are busy completing plans for their sixth annual Labor Day Festival to be held at the school grounds on Labor Day, Monday, Sept. 6. The festival this year will be bigger and better than ever before according to King Lion Frank Campbell.

The day's program will start with a parade at 10:00 a. m. to be immediately followed by the crowning of the festival queen. Included in this year's parade will be a band and the parade promises to surpass that of other years by far in many ways.

Other attractions in the full day's program will be races, contests, tug-of-war and a softball game ending with a dance to be held at the Riento hall in the evening. Concession stands and lunch served on the grounds all day.

An added event of interest will be the staging of a fire fighting demonstration by the volunteer firemen using the township's new high pressure fog fire fighting equipment. The building to be burned down is on the Emil DeBaker property and can be seen from the festival grounds. The structure is a dry cedar log building which will be filled with boxes and scrap lumber and saturated with gasoline. The fire will be allowed to get a head start with the flames coming through

Guardsmen Eligible For Nomination to West Point Academy

Lansing, Aug. 31 (AP)—Michigan National Guardsmen will have a chance to compete for the Governor's nomination for appointment to West Point.

Governor Sigler said he would nominate three candidates before Dec. 15 from guardsmen who qualify in a preliminary competitive mental examination. The winning candidates will compete at regular West Point entrance examinations March 1, 1949. About 25 men from the National Guard will be sent to West Point.

Candidates must be citizens, 19 to 22 years of age at the time of entry into the academy, but veterans of at least one year's service are eligible until their 24th birthday. All candidates must be unmarried, have the equal of a high school education and be members of the Guard at the time of their appointment.

Public Instruction Promotions Named

Lansing, Aug. 31 (AP)—Two promotions were announced today by the new state superintendent of public instruction, Dr. Lee M. Thurston.

C. L. Taylor, assistant superintendent for finance, was promoted to deputy superintendent and chief of the division of finance.

John S. Haltema, chief of the division of special education, was promoted to assistant superintendent and will continue to head the special education division.

In the Civil War, New York state sent 484,260 soldiers, about one-sixth of the Union Army.

FR CORCORAN SERVICE HELD

Committal Rites In Holy Cross Cemetery

Final rites for the Very Rev. Fr. James J. Corcoran, pastor of St. John the Baptist church, Menominee, and dean of Menominee country clergy, were held at the Menominee church Monday morning, the Most Rev. Thomas L. Noa, bishop of the Marquette diocese, offering the solemn pontifical high mass.

Officers of the mass included

13 New Trout Spots Open to Fishermen

Lansing, Aug. 31 (AP)—Thirteen new stretches of water will be open to trout fishermen through November, the state conservation department reported today.

For the other waters, the season will end the second Sunday in September, six days later than in the past.

The new water open includes: Thunder Bay river below the Ninth street dam in Alpena; Platte river below US-31 bridge west of Honor; Silver Lake in Cheboygan county; Rapids of the St. Mary's river; East Branch of the Au Gres below M-55; Au Sable below the Foote dam; lower two miles of the Black river in Mackinac county; Sporley and Big Trout (Wilson) lakes in Marquette county; Lake Superior; Ackerman lake in Alger county; and Ocqueoc river and lake below Domke bridge.

Rev. Fr. Joseph Schaul of the Church of the Epiphany, deacon; Rev. Fr. Mark L. Stergenz, of Mother Mary Mission, Phoenix, Ariz., who, an orphan, was reared in Father Corcoran's home, sub-deacon; the Rt. Rev. Msgr. Joseph L. Zyrd of St. Michael's church, Marquette, arch-priest; Rev. Fr. Joseph P. Dunleavy and Rev. Fr. Emil Beyers, Marquette, masters of ceremonies; and Rev. Fr. Francis Geynet of St. Ann's and Rev. Fr. Andrew Schulek, St. Rita's church, Trenary, deacons of honor to Bishop Noa.

Seven monsignori were in the sanctuary, among them the Rt. Rev. J. J. Sprangers of Little Chute, Wis., and 100 priests of the diocese and 35 nuns attended, in addition to relatives and parishioners.

The Priests' Choir, under the direction of Rev. Fr. J. A. Paquette of Marquette, with Rev. Fr. Albert Pelissier of Iron Mountain, organist, chanted the mass and as the recessional hymn, the church choir, under the direction of Fred Padgett, Jr., sang "In Silence Deep" by Braun.

The sermon of the services was

delivered by Rev. Fr. George M. O. Laforest of St. Patrick's church Hancock, a close friend of Father Corcoran, who said:

"A valiant defender of the church has gone back to his Maker. He died just two days short of 50 years' service as a priest and the Master he loved so dearly and served so zealously has called him to celebrate his golden jubilee in heaven."

Burial In Holy Cross
Following the services at Menominee, the body of Father Corcoran was brought to Escanaba, his native city, and was in state from 2 to 3 o'clock at St. Patrick's church, with Knights of Columbus forming a guard of honor. At 3 o'clock the "Libra" was recited by the priests of the diocese, and a eulogy was delivered by Rev. Fr. Martin B. Melican, who spoke of Father Corcoran's priestly life and accomplishments in his field of endeavor.

Burial was made in the Priests' Plot in Holy Cross cemetery following committal rites at which Father Melican officiated in Holy Cross chapel.

FEW DOCTORS FOR POLAND

Warsaw, Poland (AP)—Poland still faces an acute shortage of physicians, says the ministry of health. It is estimated there are less than three doctors per 10,000 inhabitants of the nation's 24,000,000 people. Before the war, Poland had about 15,000 physicians and surgeons. More than half that number were killed during the war or died during the Nazi occupation.

More Accidents

THREE PERSONS were killed in Delta county by electrocution over the past weekend, one of them as a result of an automobile accident which snapped a high voltage power line.

These deaths, combined with previous fatalities this year due to drowning, auto crashes and similar mishaps emphasize the terrible toll due to accidents. The plain truth is that most of these accidents, if not all of them, could have been prevented. Carelessness is the basic cause of virtually all accidents.

Despite the vigorous campaigns that have been conducted periodically to encourage greater observance of safety rules, the accident toll in the home, on the farms, in recreation areas and on the highways has remained exceptionally high. People still insist upon taking chances and flirting with death.

Next weekend is the Labor Day holiday, one of the four worst periods of the year for accidents. The others are Memorial Day, Fourth of July and Christmas-New Year holidays.

A sober reflection of what happened this year should encourage greater care and fewer accidents next weekend.

It's Big Business

OPERATING the United States postoffice department is a vast public service enterprise, the magnitude of which probably escapes the attention of most American citizens.

During the fiscal year 1947, over 37 billion pieces of mail were handled by the postoffice department. Ninety per cent of all mail is transported by rail.

The Railway Mail Service distributed and supervised the transportation of over 33 billion pieces of mail over 516 million miles of railroads and 210 million miles of star routes to over 41,000 postoffices serving all of the over 140 million people in the country. Those who handle the mail require a thorough knowledge of railroad, star route and air line schedules to postoffices in a wide territory.

The postal service is one of the biggest industries in the country. Its importance to every citizen is equally tremendous.

Blackjack Tactics

THE AGGRESSIVE POLICY that the Russians are pursuing in Germany or at least in Berlin discourages the world's hopes for lasting peace. The policy is one fraught with extreme danger for it could very easily touch off a new world war.

First the Russians tried to drive the western powers out of the German capital by the Berlin blockade. The determination of the United States, Britain and France to stay in Berlin was immediately apparent and the success of the air lift, in which huge sums were spent and are still being spent to supply the western zones in Berlin, showed the Russians that they could not win Berlin by default.

Just as negotiations to end the blockade were nearing successful conclusion, the Russians decided on a new line of attack. They are fomenting an armed uprising with the view in mind of seizing control of the city government in Berlin. Communists have made several massed attacks on city council meetings and have just about brought the wheels of municipal government to a complete halt.

The next step, and one which can be expected rather soon, is outright seizure of the city hall and the establishment of an all-Communist government. In that event, the present government, chosen in a free election, will be forced to move to the western occupied sectors.

The use of armed force and mob rule by the Russians to gain their objective when peaceful negotiations fail illustrate the warped thinking of the Reds. Further, it provides discouragement to moral forces that are working against such frightful odds for the preservation of world peace.

School Bells Ring Soon

AMERICAN YOUTH soon will be returning to school after the summer vacation.

For many boys and girls, vacation time was not all idle fun. Countless numbers obtained jobs to earn money for their college education, wearing apparel and other things. Some found themselves in jobs paying unusually attractive wages. For them the temptation to continue work and not return to school must be strong.

Teenagers with their feet on the ground and an eye to the future will go back to their books and classes, however. Youngsters without a high school education have little chance to get jobs with a future. Those without college training are finding it more and more difficult, although there are some exceptions, of course.

Increasing the possibilities for getting in to well paying jobs and professions is not the only reason for acquiring a college education.

ucation. This is a complex world. Every individual needs to know some of the background of history, economics and general culture. Most of all they must learn how to live with others on amicable terms in this age of serious tensions, competition and conflict.

A good education is helpful in training one to enjoy life fully and sensibly. And that's very important.

Other Editorial Comments

BRITAIN FREE OF RABIES

(Pontiac Press)
There are no mad dogs in Britain. There hasn't been a case of rabies, animal or human, in the British isles for 25 years. Authority for these startling statements is Hygeia, a publication of the American Medical association.

Together they reflect an amazing medical conquest which could be duplicated in every American governmental unit if the residents were willing to pay the price paid in Britain.

Hygeia gives credit for that conquest to a British bureaucrat who launched his war on rabies more than 50 years ago.

His technic was simple. It included only the isolation and destruction of rabid dogs. But his victory wasn't an easy one.

Dog lovers opposed him fanatically. A league of them with many members tried to halt his campaign. Petitions bearing thousands of names urged his dismissal.

Attacks on him were heard in parliament and there were even threats against his life. Happily for the people as well as for the dogs of the British isles, that inspired bureaucrat held office long enough to insure ultimate success for his campaign. By reason of his arbitrary destruction of a few hundred dogs over a five-year period, the British isles for a quarter of a century have been free of the disease which still causes so much needless canine and human suffering and death in this country.

COSTS STILL RISE

(Iron Mountain News)
Results of the survey of housing construction costs published recently discourage any hope that the family of moderate means will soon be able to find a home it can afford. Within the last year the cost of building or buying a small house has risen 12 to 15 per cent, and it is now 115 per cent above pre-war cost. The \$6,000 bungalow of old is now selling for \$13,000 or more. What is worse, the cost of construction is still rising. To the higher construction price-tag on the house must now be added also a higher interest cost through the years, as 4 per cent mortgage money becomes a thing of the past. While the shortage of some building materials are still in short supply and prices on some have tripled or quadrupled since 1940.

Out of this gloomy picture one firm conclusion at least can be drawn. It is that when Congress reassembles early in 1949 one of its most urgent tasks must be to canvass the results of housing legislation to date, confess the failures, remedy the defects and take a fresh look at the problem that hasn't been solved — decent housing at a price the average man can pay.

BUDDY

(Christian Science Monitor)
It isn't one of our favorite words. But we like it the better for this story:

A young man in Brooklyn the other day called the police and told them he was about to take his life.

"Why do a thing like that, Buddy?" asked the patrolman who answered the call. When the young man angrily challenged his use of the word "buddy," he explained that he had been in the army, and the two discovered they had been in adjoining divisions in France for a time.

While the patrolman talked, the call was traced and a radio car sped to the phone booth to the young man's rescue. His problems may still be unsolved, his head still dark and confused, but he has found in impersonal society a "buddy" who cares whether he lives or dies.

In that bare minimum of brotherhood, of shared experience and a common lot, may lie the gleam of insight into life which can lead a doubter through the struggle and into peace.

KEEP THEM HIDDEN

(Detroit Free Press)
We remarked the other day that we had not read and would not read President Truman's lengthy tirade against his political opponents, presented as a budget report.

Now Charles A. Halleck, Republican house leader, has issued a 15,000-word statement in answer to Mr. Truman.

We do not intend to read that either.

Come to think of it, we do not intend during this campaign to read anything that Mr. Halleck says about anything. We think Mr. Halleck is the kind of a Republican responsible for the bad odor which has characterized the party of the elephant for years.

We would suggest to Gov. Dewey that the Hallecks and the Wolcotts should be hidden in the basement when company comes.

Men gossip more than women, says a writer. Maybe because there are more men than women who play golf.

Take My Word For It . . .

THE BROAD A AND CULTURE

As I pointed out yesterday, there is no truth whatever in the superstition that the broad A is more correct or more cultured than the flat A in such words as ask, after, dance, bath, can't, etc.

The myth is perpetuated by teachers and speech "experts" (usually on the staffs of what I call "drool schools") who (a) do not know the facts of their own language, (b) have been misled by the ambiguous

sure he is not carrying any disease — bearing plants. Then he is given an inspection certificate which says by way of explanation:

"About one-third of the nation's fruits and vegetables are grown in California, where more than 200 commercial crops are produced. Last year the income from these crops exceeded two billion dollars, the highest of any state."

That modest understatement typifies the boom-time atmosphere of California, the gorgeous, the magnificent, the unbeatable. The new 41 per cent jump in population, carrying the state close to second place in the union, is just one of California's boasts.

WARREN IS POPULAR

They have a political champion today and the fact he has won national recognition is taken as another inevitable tribute to California's inevitable greatness. You do not have to be in the state very long to discover that Gov. Earl Warren has real popularity among all kinds of people.

In fact, just as California threatens to overshadow the east in population and in any number of other ways, so it is suggested that Governor Warren may overshadow the head of the Republican ticket, Gov. Thomas E. Dewey of New York. Californians won't be in the least surprised if this happens, although when they talk about the possibility, they add that Warren's natural modesty will be a restraint.

Certainly he has a warmer personal following in the West than Dewey has ever had in his own state. And California Republicans are set to display the Warren personality to the country with the same pride with which they advertise oranges and sunshine.

Plans are being completed that will take the GOP vice presidential candidate into pretty much every corner of the country. He will tour the border states with emphasis on Kentucky and Missouri, and he may go into the deep South. He will make a number of talks in the big cities of the East.

He will be accompanied on his tours by his good friend, California's Senator William F. Knowland. The Republican organization in industrial Oakland, dominated by the Knowland family, is given a lot of credit for Warren's success. When "Young Bill" came home from the war, Warren appointed him to a vacancy in the Senate.

ALSO HAS CRITICS

Even in California, of course, there are ingrates who take a jaundiced view of the smiling, friendly governor. They concede his personal charm. They say that this charm is a mask to conceal the failure of the governor's performance in office.

The governor, say these ungrateful critics, has failed to bring about adoption of progressive measures urged by a majority of the voters. Thus, in spite of wide organizational support for a fair employment practices law, nothing was done, and this in a state where the racial issue has been heightened and accentuated by hundreds of thousands of newcomers living in terrible overcrowding. Housing is another failure, according to the critics.

But it seems to me unfair to judge Warren by what he has been able to get the legislature to do. Under this strange business of cross-filing, whereby a candidate may run on both the Republican and the Democratic tickets, there is almost no party responsibility to build on. Cross-filing so blurs party lines that the average citizen cannot tell whether he's voting for a Democrat or a Republican.

The result is a legislature more subject to lobbyist pressures and more venal than most. The governor finds it impossible to persuade or coerce the members of his own party to go down the line for measures that he wants.

The contrast with New York state is striking. One of Dewey's chief boasts is his ability to get teamwork out of the legislature. He works with party leaders for party responsibility. New York has an FEPC law and housing measures well in advance of California.

Warren has liberal views which he expresses sometimes fuzzily, sometimes with forthrightness and courage. Rich Tories mutter that he is a dangerous radical. But the real test of the man is still to come. He will be judged on what influence he brings to bear on national policy and administration when—and if—he goes to Washington.

symbols in Merriam Webster's or Funk and Wagnalls, and their imitators.

The broad A in all the words is definitely obsolete in America as a whole, and it is rapidly disappearing in New England.

Despite this fact, which is supported by highest American authority, some teachers and speech "experts" place the natural and standard flat A in the same category as eating peas with your knife.

For example, a certain Hollywood speech teacher in a prominent dramatic school advocates the broad A to the point of fanaticism. In her book on speech, she declares emphatically, and entirely erroneously, that the flat "a" is "incorrect" in such words as bath, staff, last, dance (page 160).

She gives these sentences as drill material in teaching her students to eliminate the "incorrect" flat "a" (my phonetics): "The mahster laighed at his staff because the lahest semester had pashed. A cahf (calf) was hahf hidden in the tall grahsh that grew on the pahthway leading up to the cahstle (castle)."

Of course, they won't put you in jail for speaking like that. But read the sentences aloud and . . . oh, well, you know what I mean.

THE BIRD MAN—Oscar McKinley Bryens is a sun-browned middle-aged man whose avocation is the study of birds and their banding. He is a member of several ornithological societies, in-

cluding Wilson's and Audubon, and his work has received the compliments of noted ornithologists, including Dr. Karl Kristoferson of Blaney Park.

"In June of this year I began my twenty-fifth year in bird banding," Bryens reported.

"And it was twenty-five years ago on Aug. 13 that I first began making daily records of observations of birds."

BACK AGAIN — Bryens has been in Lower Michigan and has now returned to Luce county and a new place of residence about one and one-half miles west of his former residence near McMillan. He returned to Luce county in June, after having been away since November, 1945.

The Escanaba Daily Press has presented several of Bryens' papers on birds, and he was gratified to receive several letters from readers who were interested in birds, in Bryens work, and in his interesting presentation of his material.

"My new bird banding station is a type of territory much different than that where I formerly resided," Bryens said. "The former station was in an open country and a small orchard, and my new station is in woodland."

At his first station near McMillan, Bryens banded and observed birds in 1924 and 1925, and from 1927 to 1945. Now he is back again in his beloved Luce county, resuming a study that has practically become a life work.

WINNING THEM OVER—"The spring migration was practically over at the time of my return to Luce county, and the birds that were in and about the vicinity were in the nest at the home of Mr. and Mrs. Charles Sargent, in addition an olive-backed thrush was trapped and banded on July 27 that appeared nearly if not full grown."

These 13 birds banded brings my grand total of birds banded to 12,285," Bryens reported.

YOU CAN HELP—There is a more to bird banding than the recitation of statistics, as Bryens and other ornithologists can tell you.

By the use of identification bands the U. S. Biological Survey is making an extensive study of the migration and geographical distribution of birds.

The bands are made of metal and are attached to the legs of trapped or nesting birds released for flight. Each band bears a serial number and the address to which the captor of the bird should send a report. You can help by promptly sending out the requested report if you happen to find such a leg band on a dead or injured or trapped bird.

By this means many puzzling questions regarding bird migration will eventually be answered, together with data on the length of life of birds. Five or six years is considered "fairly good old age" for most of the common species, although there is on record a pintail duck that lived to be thirteen years old.

INTO THE PAST

Ten Years Ago

Escanaba—Miss Agnes Taylor left Monday night for Racine, Wis., where she will attend St. Catherine's college during the coming year. She was accompanied by Miss Mary Corbett, who is on a vacation trip, and the two girls will visit in Milwaukee with Sister Mary Elma, a cousin of Miss Taylor, and also with Miss Taylor's aunt, Sister M. Lambert of St. Edward's school, Racine, before the opening of the fall term at St. Catherine's.

Manistique—Mrs. Dorothy M. Shipman, Manistique librarian, has returned from an extended educational tour of the southwest. Several days of her trip were devoted to the study of Mexican customs and government at the University of Mexico.

Gladstone — The Misses June and Vera LaLande left last night for St. Paul and Austin, Minn., where they will spend a week visiting with relatives and friends.

"On July 24 I trapped and banded my first oven-bird, bringing my grand total number of different kinds banded to 94."

TWELVE THOUSAND — In addition to the above mentioned birds, Bryens also trapped and banded in July 1 robin, 2 olive-backed thrushes, 1 veery and 1 oven-bird. The birds were all trapped with water for bait.

Four song sparrows were taken from a nest, banded, and replaced in the nest at the home of Mr. and Mrs. Charles Sargent. In addition an olive-backed thrush was trapped and banded on July 27 that appeared nearly if not full grown.

Washington, (AP)—John Q. Citizen unbuttoned his shirt, loosened his belt, eased himself into a chair and began reading his afternoon paper while Mrs. Citizen prepared supper.

Subconsciously, he carried on a silent commentary as he read, a habit that had grown with the years:

Hmmm . . . some barbers wanting \$1.25 a haircut . . . not worth it with this little fringe I've got left . . . I shouldn't pay more than 50 cents . . . they can make money at 50 cents on me . . . wonder how much a barber makes a day . . . takes about 20 minutes for a haircut . . . three haircuts an hour for eight hours makes 24 haircuts a day at \$1.25 each . . . but I don't suppose they average that much . . . Glad that flying boat made it to Chicago . . . imagine it! 4748 miles in 24 hours and 2 minutes from Hawaii . . . now there's a place I'd like to see one of these days . . . fellow told me even the men out there wear flowers draped around their necks and nobody thinks anything of it . . . sort of a local custom . . . I wonder if all the races get along as well together as he said they do. We could use a little more spirit of that kind over here . . .

Well, that fellow Tito is into a row with Hungary now . . . he's got his dander up and it looks like he's not going to be pushed around . . . looks like Stalin has got a problem there . . . this story says "responsible state officials of Hungary have been pursuing a campaign against Yugoslavia and Yugoslav peoples which is in full contradiction to the agreement of friendship, cooperation and mutual aid between Yugoslavia and Hungary" . . . I could say it in fewer words . . . I'd say "you've been telling lies about me and I don't like it, see, and you'd better shut up before I hop you one." . . . Funny thing about those two Russian biologists who were fired because their views on heredity and environment didn't agree with the official Communist party views . . . imagine two American biologists being fired because they didn't agree with the Democrats' or Republicans' theories on biology . . . What a laugh if the American Academy of Sciences kicked out a couple of its members for that reason . . . I wonder if the Russian people laugh, too, when they think no one is looking . . .

Golly! 124,000 gallons of beer dumped at Red Bluff, Calif., on a federal judge's order . . . looks like there should have been some way to save it . . . let's see . . . that's about 1,322,600 cans of beer at 15 cents a can . . . worth about \$198,390 in the can . . . and that reminds me . . . I could use a cold beer right now . . .

Later, Mr. Citizen sat at supper with his wife.

"Anything in the news, dear?" she asked.

"Not much," he grunted. "Same old stuff."

The Washington Merry-Go-Round

BY ROBERT S. ALLEN

Washington.—Leaders of the House un-American activities committee had a scorching secret set-to over the conflicting Hiss-Chambers testimony.

The wrangle took place after the inconclusive, day-long interrogation of the former New Dealer and Time editor. The congressional probbers barked more angrily at one another than they had at the two witnesses.

Cause of the dispute was the question of instituting perjury proceedings.

Rep. Ed Hebert, fiery Louisiana Dixiecrat, angrily demanded immediate prosecution. Rep. Carl Mundt, R., S. D., and Rep. Richard Nixon, R., Cal., just as angrily insisted on further public hearings. Each side accused the other of playing politics and grand-standing.

"I'm getting sick of this messing around," Hebert declared. "Either Hiss or Chambers is lying, but it's not for us to decide who is guilty. We have presented the evidence, and it's now up to the justice department to determine who committed perjury and to prosecute. I am strongly in favor of the committee continuing its investigation, but the Hiss-Chambers phase of it is finished. It's time we went on to other things."

"But the administration wants to shut off the probe entirely, while you Republicans want to keep this Hiss-Chambers pot boiling. Both sides are playing politics. I'm a Thurmond man myself, and I say you are both trying to drag this matter out until after the November election."

"We're laying the facts on a very important matter concerning the loyalty of government officials before the American people," reported Mundt. "Do you call that playing politics?"

"It's the way you're doing it," shot back Hebert. "You are obviously dragging this thing out in an effort to affect the election. We have already established the fact that perjury was committed. What more is needed for the justice department to act? It's got the evidence, let it step in and take over. That's what the department is for."

"That's your opinion," snapped Nixon. "We don't think the committee has uncovered all the evidence. Until we do, we should not waive our rights to the justice department."

Strangely, Chairman Parnell Thomas, usually very vocal, took no part in the exchange. Later, however, he indicated he was "inclined" to agree with Hebert.

The committee finally effected a compromise. On Nixon's motion it was agreed to hear several other witnesses after which the case would be turned over to the justice department.

CURED

Clark Clifford, handsome young ghost writer for President Truman, has a favorite story on how a certain speech was prepared for the late FDR.

Instead of turning the task over to his usual assistants, Roosevelt, on this occasion, did his own drafting. Several days before the speech was to be made, he turned the manuscript over to Harry Hopkins.

"I've written this myself," Roosevelt said. "Look it over and see what ought to be done with it."

Hopkins summoned Judge Sam Rosenman and Playwright Robert E. Sherwood, who usually prepared the speeches. After the trio had read the draft, there was a long silence.

Finally Sherwood said, "The best thing is to put this aside and start fresh from scratch."

The next day, Hopkins handed the new speech to Roosevelt. He read it carefully and then exclaimed, "This is fine. Just what I wanted."

Clifford relates that Roosevelt never asked about his original draft and never again wrote another speech.

Scranton Pulls Self Up By Its Bootstraps

Civic Drive Nets Escape From 'Ghost' Status

Scranton, Pa., (P)—Two years ago this mine scarred city wallowed in a mire of declining business, population and faith in the future.

Today, because it citizens refused to let the ghost take over, Scranton has boosted its population and owns 11 new industrial plants, each of them either leased or spoken for by new industries.

The buildings were built with bonds, bought by housewives, miners, janitors, bankers, newsboys and the other 140,000-odd citizens, big and small.

And the industries the new plants have attracted here have helped to swell the population of Scranton and surrounding Lackawanna county to 300,100, pushing the figure over the 300,000 mark for the first time since pre-war days.

Scranton fell into evil days when anthracite, king of Lackawanna valley, tumbled from his throne.

World War II didn't improve conditions. More than 50,000 residents left Lackawanna county before the war ended.

But let Willis W. Jones, general secretary of the Scranton chamber of commerce tell the story:

In March, 1946, a small group of businessmen got together to talk about an economic blood transfusion for Scranton.

Out of that and subsequent meetings were born "Scranton Plan Inc.," and "The Scranton-Lackawanna Industrial Building Co."

The Scranton planners turned out a tune "Buy Scranton Bonds," and took to the street to sell their fellow-citizens an investment in their future.

Selling first mortgage, four per cent bonds in denominations of \$100, \$500, \$1,000 and \$10,000, they built a kitty of more than \$1,000,000 and went out and bought a \$3,500,000 defense plant from the government for less than half the cost.

The plant, used by Murray Corporation of America to turn out B-29 wings during the war, is now headquarters for the Scranton plan and Murray, with a five-year lease, is producing stoves, kitchen cabinets and sinks.

Out of the Scranton-Lackawanna Industrial Building Co. bonds, also four per cent, came the money to build new plants.

School Enrollment In U. S. Sets Record

Washington, Aug. 24 (P)—School and college enrollment will soar to a new record of nearly 32,000,000 this fall, despite another drop in the number of veterans on campus.

The office of education, reporting this today, said grammar schools will enroll 22,797,000 students, high schools 6,270,000 and colleges 2,500,000.

All of the increase, estimated at 760,000, will be in the grammar and high schools.

Ex-GIs, who represented 53 percent of the college enrollment two years ago and 48 percent last year are expected to account for only 45 percent this year. Non-veterans, however, will take the places of the 100,000 or so veterans leaving school.

Mistaken Identity: Overseas Soldier Finds Wife Alive

Indianapolis, (P)—Cpl. Marion Williams arrived home from Germany this morning and wordlessly embraced the wife he had been told was dead. Then he went to bed to recover from shock and fatigue.

Confusion in names with another Cpl. Williams resulted in the military policeman being sent home on an emergency furlough, supposedly to attend his wife's funeral.

He telephoned his mother, Mrs. Esther Williams, when he arrived Monday night in Springfield, Mass., and almost collapsed from shock when his wife answered. The couple's 19-month-old baby, Clarlene Renee, and five-year-old Gletha Sue greeted their father joyfully.

Take of Great Lakes Whitefish Shows Big Increase Over 1947

Lansing, Aug. 24 (P)—A phenomenal increase in the Great Lakes catch of whitefish, choicest of inland fish, was noted today by the State Conservation Department.

The department said the whitefish catch on Lake Huron in June alone was 980,197 pounds, compared with 538,331 the year before.

At mid-year, the Lake Huron whitefish catch was 700,000 pounds more than in the first six months of 1947, while in Lake Michigan the catch was 547,000 pounds higher and in Lake Superior 61,000 pounds.

The number of commercial fishing boats operating out of Port Huron has increased from seven last year to 15 this year. The department said lake trout catches in Lake Huron fell to a record low of 2,795 pounds. In Lake Michigan it dropped 50,000 pounds to 444,934. In Lake Superior there was the least change, with 1,090,368 pounds at mid-year in 1947 compared with 1,073,913 this year.

Sixteen thousand pounds of walleyes have been taken in June in Little and Big Bays de Noc by commercial trolling, a new wrinkle in commercial fishing.

Factory Worker Pay Is Up In Michigan

Lansing, Aug. 24 (P)—Wage increases have boosted the average earnings of production workers in Michigan factories, the State Labor Department reported today.

The average earnings rose from the June level of \$60.81 for 39.7 hours to \$62.57 for 39.6 hours in July.

One-quarter of the total volume of the nation's printing is normally done in New York state.

American Farm Price Supports May Be Cut

Government May Have To Put Up \$1,500,000

Washington, (P)—Talk of possible cuts in farm price supports was heard in government circles today. It seemed from the prospect that the agricultural department may have to put up around \$1,500,000,000 to keep prices on 1948 crops from falling below levels fixed by law.

Any changes would have to be made by Congress, however, and the lawmakers are not due back until January.

Discussion of the price support problem was heard anew at the agriculture department where officials are mapping out a 1949 farm production program. Its goal is to get farmers to start cutting back from high wartime levels in potatoes, oilseeds, and possibly corn.

A proposal that 8 per cent less land be planted to wheat already has been announced. But reports from the field indicate that growers plan to ignore the department's recommendations and plant another big acreage.

The action of congress in June in extending the wartime price supports for basic crops another year was said to be influencing the farmers' wheat plans. Officials said growers of other crops also are likely to ignore suggestions for smaller output of crops already listed as surplus.

The Truman administration had urged lower price supports for next year's crops.

No responsible department official is willing to be quoted by name, but many say privately they believe the next congress will find it advisable to trim the support levels in order to prevent an accumulation of big surpluses.

AMG Cites Industry Gain in U.S. Germany

Berlin, Aug. 28 (P)—Industrial production in the combined British-American zones of Germany scored a 10 percent gain to reach a new postwar record in July, the American military government reported today in its semi-monthly review of occupation affairs.

The report said over-all production now stands at 60 percent of the 1936 base level and that all industrial groups showed increases during the month, with all but two setting occupation highs.

NAHMA TOWNSHIP NOTICE OF A SPECIAL ELECTION

TO THE QUALIFIED ELECTORS OF NAHMA TOWNSHIP, notice is hereby given that complying with a petition submitted to this board signed by the required number of voters, the board of Nahma Township in a special meeting held on August 19, 1948 has designated TUESDAY, SEPTEMBER 14, 1948 as the date of a Special Election to vote on the following proposition:

A PROPOSITION, pursuant to Act No. 338 of the Public Acts of 1947 which is an act to amend sections 1 and 2 of Act No. 238 of the Public Acts of 1939 entitled "An act to authorize the use of surplus moneys in the contingent fund of townships for school purposes in certain cases."

In accordance with the provisions of the above act, shall the Treasurer of Nahma Township transfer to the Treasurer of the Nahma Township School District the sum of Four Thousand Five Hundred Dollars (\$4,500.00) to retire outstanding indebtedness, same being surplus moneys in the contingent fund of Nahma Township?

The polls of said election shall be open from 7:00 o'clock A. M. until 8:00 o'clock P. M. on said day of election.

to one of his opponents or have not yet made up their minds how they will vote. But far less publicized—though certainly equally important—will be the efforts of all the parties to hold on to the vote they feel they already have.

Despite the trumpetings of party unity and the glowing words of praise for the candidates from their supporters, there are areas of lukewarmness, if not actual divisions, within each party. Though he was an early winner at the Republican Convention, Dewey was far from the enthusiastic choice of all Republicans. Similarly, Truman became his party's standard-bearer in the wake of bitter disappointment among several wings of the Democratic party.

Both Truman and Dewey have spent a good deal of time since the conventions trying to instill harmony among the divergent forces within their own parties.

Scars of the pre-convention battle in Republican ranks still show today. Recently, after the two major party conventions, "Fortune" asked a cross section of Republican voters:

So far as you're concerned, do you think Dewey is the best man the Republicans could have nominated for President, or would you have preferred some other man as the Republican candidate?

	Dewey	Best	Pre-Express
		ferred	No
		Man	Another
		Opinion	Opinion
Total Republican Voters	60.5	32.5	7.0
Republican Voters by Region			
Northeast	62.5	31.4	6.1
Midwest	52.4	40.7	6.9
South	67.3	23.0	9.7
Far West	69.2	23.8	7.0

Although a majority of Republicans seem pleased with their

party's choice, almost one-third would have preferred someone else. Middle Western Republicans are especially lukewarm about their present candidate. This region of course, was the stronghold of Stassen and Taft supporters. And despite the fact that both Stassen and Taft have pledged full support to Dewey in the campaign, there is still a lingering wish among their supporters that they could vote for some Republican other than Governor Dewey.

Yet rumblings among Republicans over Dewey are not nearly as great as the lack of enthusiasm in Democratic ranks for Truman. "Fortune" asked a cross-section of Democratic voters:

Do you think President Truman is the best man the Democrats could have nominated for president, or would you have preferred some other man as the Democratic candidate?

	Truman	Pre-Express	No
		ferred	Man
		Another	Opinion
		Opinion	Opinion
Total Democratic Voters	46.0	47.1	6.9
Democratic Voters by Region			
Northeast	52.9	40.6	6.5
Midwest	52.5	38.9	8.6
South	36.8	56.4	6.8
Far West	50.3	45.3	4.4

A slim majority of Democrats in the Northeast, the Midwest and the Far West say they are satisfied with Truman as their candidate. In the South, however, anti-Truman feeling still runs deep. In the land of the Dixiecrats, more than 50 per cent of the Democratic voters say they would have preferred someone else.

These results, of course, are not an indication of how the final vote will turn out in November, because people often vote for candidates they are lukewarm about. But they do point up to the size of the job that both Truman and Dewey have in holding their own supporters in line.

Part of the job of keeping harmony in party ranks is always given to the Vice-Presidential candidates. They usually tour many of the so-called "safe" areas to make sure that solid Republi-

can or Democratic voters will turn out at the polls on election day.

On the Republican side, Governor Earl Warren seems to be extremely well suited to this role. As Vice-Presidential nominee, he receives a higher vote of confidence from Republicans than does Presidential candidate Dewey. "Fortune" asked:

How about Vice-Presidents? So far as you're concerned, do you think Warren is the best man the Republicans could have nominated for Vice-President, or would you have preferred some other man on the Republican ticket?

	Total	Republicans
		%
Warren best man	74.3	
Preferred another	10.6	
Express no opinion	15.3	

The Republican Vice-Presidential nominee will help Dewey especially in the Far West and in the Midwest.

The role of Senator Barkley on the Democratic ticket is like that of Governor Warren for the Republicans. "Fortune" found that the Democrats are more strongly for Barkley as their Vice-Presidential nominee than they are for Truman at their Presidential candidate.

Do you think Senator Barkley is the best man the Democrats could have nominated for Vice-President, or would you have

preferred some other man on the Democratic ticket?

	Total	Democrats
		%
Barkley best man	59.2	
Preferred another	16.8	
Express no opinion	24.0	

Though Barkley does not seem quite as popular among Democrats as Warren is among Republicans, he might actually be of more value to Truman as the campaign progresses. For Barkley is better liked in the South—where he is best known—than he is any-

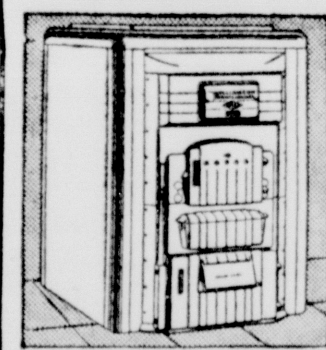

where else in the country. And it is probable that he will be able to bring a good many rebel Democrats below the Mason-Dixon line back into the Democratic fold before Nov. 2.

While the Republicans have something of a problem to keep a number of very lukewarm Dewey supporters in line, the Democrats have an even greater one in trying to win back into their ranks the "irregulars" who have become Dixiecrats.

BABSON LISTS MOST USEFUL

Farmers, Fishermen And Inventors Rate High

By ROGER W. BABSON
Gloucester, Mass. —The most useful people today are farmers, fishermen and inventors. What about teachers, preachers, writers, etc. you may ask. Well, if they make people more useful farmers, more useful fishermen, and more useful inventors, they also are patriotic citizens. If, however, they merely make people dissatisfied with present conditions and make them greater spenders and wasters, then they are doing more harm than good. Robert M. Hutchins, Chancellor of Chicago University, says:

Americans have never had to be intelligent. America has grown rich and strong not because of its system of education, but in spite of it. Only a country with great natural resources could survive our educational system so lacking in logic and ultimate aim."

Why Protect The Farmers?
The present increase in population demands a constant increase in food production, or the world will starve. The per capita productivity of the earth is falling rapidly. In fact, my friend H. S. Richmond of Maitland, Florida, claims, "so-called scientific agriculture is not solving the problem; in fact, its remedies aggravate the illness. There has been a greater loss of productive soil in the last few decades through cultivation than the accumulated loss of all previous time. Chemical farming is not the answer; it does not offset large crop diseases and insect pests.

Furthermore, DDT and other sprays are killing off honeybees, lady beetles, mantids, as well as birds, toads, spiders, etc., which have heretofore protected us from insects. It is dangerous enough to depend upon the soil for food

LOOK OUT FOR PIN-WORMS

Recent medical reports reveal that an amazing number of children (and grown-ups too) may be victims of Pin-Worms—often without suspecting what is wrong! And these pests, living inside the human body, can cause real distress. So watch out for the warning signs that may mean Pin-Worms—especially the aggravating rectal itch. Get JAYNE'S P-W and follow the directions.
P-W is the Pin-Worm—especially developed in the laboratories of Dr. D. Jayne & Son, 400 years of reliable research. The small, easy-to-take P-W tablets act in a special way to remove Pin-Worms. Ask your druggist: P-W for Pin-Worms!

These are the times that try kids' souls-- (Put down those bats and fishing poles.)

This is the season of lesson and test-- (Forget the joys of that all-summer rest.)

These are the months of learn and teach-- (Gone, for awhile, are the lake and the beach.)

Now is your chance to be smart and booky-- (Come to think of it, there's always hooky.)

but, as it is now being used for raising industrial products, the situation becomes far more serious. We are fast approaching a time when a newsboy and mailman must collect an old paper and magazine in order to leave a new one, and when the sales tax will be assessed on what we waste rather than on what we buy. Hence, we must give every encouragement to the farmer, forester and gardener.

Why Protect The Fishermen?
When we are moaning about soil erosion, we should remember that this soil with its minerals and vitamins has been washed down the little streams and large rivers into the ocean. Hence, while the soils have been getting

poorer, the oceans have been getting richer. This means that while grains, vegetables, cattle, poultry, eggs, etc., raised on the soil without special prepared food, are constantly becoming less nutritious, the fish and other ocean products are constantly getting richer in minerals and vitamins.

The washing of the soil can be prevented by contour plowing; and by returning to the soil all of the crop excepting the portion which goes down the sewers of cities. When you consider, however that over 12,000,000 people live in Greater New York, and 23,000,000 live in other large cities and their metropolitan areas, this adds up to over a quarter of our population. Most of their waste goes down sewers ultimately into the ocean. Hence, my appeal that the fishing industry deserves as much protection and government subsidy as the farming industry. In fact, the ocean and its products are the hope and salvation of mankind along with religion and education.

Why Protect Inventors?
Outside of the bare necessities of food, clothing and shelter, as enjoyed by the humblest original settlers, everything we have worthwhile, from a needle to a harvesting machine, we owe to inventors. Labor leaders claim that today's better standard of living has come from increased union wages, but this is a lie. The

increased standard of living enjoyed by wageworkers today is due to new inventions, new processes, and new products. It is true that labor unions may have forced employers to encourage and finance inventors; but with the same inventions as we have today, wageworkers would be just as well off if there had been no such thing as labor unions. Hence, I appeal for government subsidy for inventors, including necessary funds for financing worthwhile inventions, and that rich corporations be prevented from buying up and smothering inventions to protect their own obsolete plants and machinery.

U. S. Buyers Snub Some Luxury Items
Washington, D. C., (AP) — Americans seem to be backing away from some "luxuries" in the face of climbing living costs.

This showed up today in an Internal Revenue Bureau report on tax collections for July, the first month of the new fiscal year.

Slower sales of jewelry, furs, cosmetics, and handbags and luggage caused retail taxes on those items to drop ten per cent below the same month of last year.

That meant \$3,635,000 less revenue for the government, although it still took in \$32,718,000 from the 20 per cent levy on retail prices of those goods.

The amusement business also appeared to be feeling the pinch.

Taxes on admissions to theatres, night clubs, concerts and the like dropped off \$2,649,000 from a year ago although the government collected \$37,583,000 from that source.

Taxes on bowling alleys and pool rooms declined \$134,000, but still yielded \$1,430,000 for the month.

Federal tax collections as a whole were off \$323,254,000 for July this year. They totaled \$2,360,000,000 for the month against \$2,683,000,000 for July, 1947.

Traunik

John Lustick left Saturday for his home in Naperville, Ill., after visiting with relatives in Traunik. Josephine Knaus has returned to Milwaukee after visiting in Traunik with her father, Joseph Knaus.

In a normal year, New York state produces more than \$1,500,000,000 worth of clothing, almost half the national output.

Red Ryder

MARRIED FIFTY YEARS—Mr. and Mrs. Milo R. Gonser, well known residents of Curtis, celebrated their golden wedding anniversary on August 22. A family dinner, with the decorative theme in gold, centered with a tinted picture taken from their 1898 photograph, was served at Blaney Park, followed by open house at their home. A corn and Weiner roast for the family group at their summer house on the beach closed the days' festivities. Mr. and Mrs. Gonser's seven children and thirteen grandchildren were present for the occasion. One son-in-law, Major George F. Vaughan, who is on duty at a Marine Corps Air Station, was unable to attend.

AUGUST BRIDE—Miss Shirley Leach, daughter of Mr. and Mrs. George Leach, Jr., of Adrian, became the bride of Lorian Bernard Callahan, son of Mr. and Mrs. Joseph Callahan also of Adrian, at a double-ring ceremony performed in St. Joseph church in Adrian by the Rev. Fr. A. C. Schneider. Mrs. Callahan is a granddaughter of Mr. and Mrs. George Leach, Jr., of Lathrop and of Mr. and Mrs. William Rusha of Wells. Both the Leaches and the Rushas attended the wedding on Aug. 14, as did Mr. and Mrs. Frank Noel of Lathrop. Following a wedding trip to New York, Baltimore and other East coast places, the couple will be at home, 431 South Winter street, Adrian.

Birthday Party
A surprise birthday party for John LaPerriere, who was 75 years old August 30, was held Sunday afternoon at the Louis Johnson home at Hyde. The party was arranged by Mrs. Johnson, his granddaughter, with whom he makes his home.

A picnic supper was served by Mrs. Johnson, assisted by Miss Agnes Baribeau. Mr. LaPerriere received many useful gifts, and also telephone messages of congratulation from his sons and daughters who live away from here.

Guests at the party were Joseph LaPerriere, Miss Ethel LaPerriere, Mr. and Mrs. Edmond LaPerriere and daughters, Mrs. Marion Moros and Mr. and Mrs. Stanley Olson and son, of Marquette; Mr. and Mrs. Philip Baribeau, Agnes, Freda and Virginia Baribeau, Mr. and Mrs. Ernest Lafrenier, Frank Lafrenier, Mrs. John Meyer and children, Mr. and Mrs. Stephen Clairmont and children, Mrs. Martin Ritchie and daughter and Mr. and Mrs. Lloyd Lindberg and son, of Escanaba.

L'Heureux-Mohr
Miss Joanne Mary L'Heureux, daughter of Mr. and Mrs. J. Emile L'Heureux and John E. Mohr, son of Mr. and Mrs. Ava Mohr, spoke their marriage vows in a double ring ceremony performed Saturday morning, August 28, at 10 o'clock in the parish house of St. Patrick's church by Rev. Fr. Howard Drolet.

Preceding the ceremony the bridal party and members and friends of the family attended an 8 o'clock high mass at St. Patrick's church.

Attending the couple were Mrs. Robert Sjoberg and Miss Shirley Palmateer, bridesmaids, and William and Patrick Mohr, best man and groomsmen.

The bride wore a gown of heavy light blue satin, trimmed with wide blue lace, the full skirt hooped at the hipline. Her veil of light blue illusion was caught to a cap of blue satin and flowers. Her blue satin prayer book had blue satin ribbon markers knotted with white rosebuds, and she carried a single white orchid. Mrs. Sjoberg wore pink silk marquisette and Miss Palmateer, lavender silk marquisette, the gowns made with snug bodices and tiered ruffled skirts. Their net hats and mitts were of matching shade and they carried colonial bouquets.

Mrs. L'Heureux, for her daughter's wedding, wore green flowered crepe with matching green accessories and Mrs. Mohr wore rose crepe and black accessories. Both mothers had corsages of gardenias.

A wedding breakfast was served at the home of Mrs. Catherine Snyder, grandmother of the bride, and dinner for 22 guests, the bridal party and immediate family members, at the Sherman hotel.

IS ENGAGED — Mr. and Mrs. John Gruen of Detroit are announcing the engagement of their daughter, Mary Jane, of 321 South 12th street, Escanaba, to James Nault, 905 First avenue south, son of Mr. and Mrs. Phillip Nault, of Wilson. No date has been set for the wedding.

NEW BRIDE — Miss Doris M. Desnarais, daughter of Mr. and Mrs. Herman Desnarais of Hermansville, became the bride last Saturday of Lawrence Bouchard of Gladstone. After a wedding trip through Upper Michigan the couple will make their home at 1312 Delta avenue, Gladstone.

followed by a reception at the bride's home. The tiered wedding cake with a tiny bride couple and three large bells, the top ornament centered the floral decorations in which mixed bouquets, gladioli and dahlias were effectively used.

The couple left on a honeymoon trip to various points in Wisconsin, including the Dells, the bride, for traveling, wearing a glen plaid three piece suit with brown accessories. They will live in Madison, Wis.

The bride, a graduate of Escanaba high school has been employed by the Michigan Bell Telephone company. Her husband, a graduate of Manitowoc high school is attending the University of Wisconsin where he is a member of the Triangle.

Wedding guests included Ritchie Burr and William McGee, Marquette; Mr. and Mrs. Francis J. D'Amour, Houghton; Mrs. J. MacIntyre, Ishpeming; Mrs. George Koski, Detroit; Mrs. Bornson of Manitowoc, grandmother of the bridegroom; Connie Thomas of Manitowoc; and LorRayne Champagne, Madison, Wis.

Today's Recipes

Mrs. Stanley Kwarcynski of Bark River Route 1, has sent three of her excellent recipes to the department, her favorite recipes for steamed rice and meat balls in tomato sauce and a dressing for cucumbers, requested several days ago.

Steamed Rice
One and one-half cups rice
Two medium onions, diced
One-fourth green pepper, diced
One-fourth teaspoon chili powder
One-half can tomato soup or paste

Put four tablespoons of drippings or lard in a kettle. Add diced onions and let cook until brown. Then add rice and tomato soup or paste and green pepper, if desired. Salt and Pepper to taste. Cover and let simmer after adding 1 cup of water, hot or cold. Serves 4 generously.

Meat Balls in Tomato Sauce
One pound ground beef
Three slices bread
Two eggs
One-half teaspoon sage
Two large onions
One can tomatoes
To one-half cup melted shortening (in large kettle) add one onion diced real fine. Let brown. While waiting mix ground beef, bread, eggs, sage, onion and salt and pepper to taste. Add tomatoes to brown onion. Make small balls of meat mixture and add carefully to sauce. Stir easily so as not to break meat balls. Cover and let cook one-half hour.

Cucumber Dressing
One-fourth cup vinegar
One cup water
Two tablespoons sugar
Salt and pepper
Mix water, vinegar and sugar until sugar is dissolved. Add to sliced cucumbers and mix well.

Rapid River Will Open Schools On Wednesday, Sept. 8

Rapid River, Mich.—The Rapid River Rural Agricultural school will open Wednesday, Sept. 8. The hot lunch serving will begin on the first day in all schools.

Bus routes in Masonville township will be the same as previous years. Since the seventh and eighth grades of the Alton school will be coming to Rapid River High school, there will be a change in the bus route from Ensign and Stonington.

The position of shop teacher at the Rapid River school remains to be filled. Faculty members are as follows:

Loretta McCarthy, kindergarten; Mrs. Louis Sorgenfrie, first and second grades; Mrs. Alice Sundling, second and third grades; Mrs. Anna Stude, fourth grade; Mrs. Zola Beauchamp, fifth grade; Ina Short, sixth grade; Alice Kniskern, Bungalow school; Mrs. Elmer Peterson, Central at Stonington; Mrs. Harold Gustafson and Mrs. Carl Stenlund, Stone Anderson school.

Marie Theoret, French and junior high school; Mrs. Marie Bowers, English and mathematics; Mrs. Everal Venton, commercial; Norman Slough, principal, coach physical education and history; Paul Bowers, superintendent, mathematics and vocal music.

There are three new faculty members.

James W. Stoker of Evanston will teach junior high, math and band. Mr. Stoker received his B. A. degree at Western Michigan college, was a member of the U. S. Army in World War II and has taught at schools in Mason, Mich., and Gladstone.

Carroll Norden of Perkins received his B. A. degree at NMCE in Marquette, spent four years in the Army Air force and has taught at the Fairbanks township school. He will teach agriculture, science and junior high.

Mrs. Harold Snyder, Escanaba, received her B. S. degree in education from the University of Wisconsin, and has taught in Marshfield, Belleville and Milwaukee.

Plan Auditorium And Gymnasium At Whitedale School

Gulliver, Mich.—The proposal to build an auditorium and gymnasium at the Whitedale school will be discussed at a special meeting to be held at the township hall Thursday evening, Sept. 2, at 8 p. m. Tillie Nielson, Doyle township P. T. A. president, announced today.

Town and school officials and all interested township residents are invited to attend the meeting.

Subject to a majority vote of the electors in the November election, the Doyle township treasurer will transfer \$4,000 of tax diversion funds on hand if the Doyle township board of education will match it with an equal amount.

The \$8,000 fund would be earmarked for the proposed auditorium and gymnasium building. Each following year as tax diversion funds are available, the fund would be increased until the required amount is raised.

"Facilities in our community for education, health, physical education and recreation are woefully inadequate," the P. T. A. president said. "Let us all get out

Calvary Church Opens Drive For Parsonage Fund

Rapid River—Calvary Lutheran church of Rapid River, Rev. Philip Engdahl, pastor, is conducting a drive this week to raise funds for the purchase of a parsonage.

The church board plans to buy the Albert Caswell home, and to convert the large garage on the property into a recreational hall and Sunday school, giving the congregation additional space much needed for organization meetings and other church affairs.

It was reported following services Sunday that \$3,000 or a little over half of the amount needed, has been pledged, and the solicitation is continuing through the week. Friends of the church who wish to take part in the project are asked to contact Albert Peterson in Rapid River.

Wilhelmina is 68 Years Old Today; 50 Years a Queen

Amsterdam, The Netherlands, Aug. 31 (AP)—Queen Wilhelmina takes a curtain call today for her 50-year reign over The Netherlands. This is her 68th birthday and the 50th anniversary of her ascension to the throne.

It also is the first day of a week-long golden jubilee celebration at the end of which she will abdicate and turn the duties of state over to her daughter, Princess Juliana.

Queen Wilhelmina came to Amsterdam yesterday from her country estate at Apeldoorn. Hundreds of thousands of her subjects thronged the streets to pay her homage. She paused briefly at the Hague on the way to resume

Tropical Hurricane Will Miss Mainland

Strong Winds To Be Felt On Atlantic Coast

Hatteras, N. C., Aug. 31. (AP)—A tropical hurricane moving up the Atlantic coast will miss the mainland entirely if it keeps its present course, the U. S. weather bureau said today.

The bureau warned, however, that strong winds would be felt along the coast tonight.

Wind velocity here increased to 30 miles an hour at mid-morning. The forecast for Maryland and Delaware called for strong northeast winds late this afternoon and tonight, and fresh northeast winds along the New Jersey coast tonight.

The weather bureau said the storm is "apparently receding slowly and is moving north-northeastward," which would be away from land.

This battered down area, however, was still endangered by steadily mounting winds and pounding seas as it caught the edge of the receding hurricane.

The U. S. weather bureau in a 4 a. m. (EST) advisory from Miami said "Winds will continue to increase on the North Carolina Capes, reaching gale force this morning and probably near hurricane force late this morning or this afternoon."

ANOTHER HURRICANE
Miami, Fla., Aug. 31 (AP)—Another hurricane appears to be brewing in the Atlantic some 300 miles east of Martinique, a French island in the Lesser Antilles, the storm warning service reported today.

A steamship, the Benjamin Greigson, told the weather bureau here that she passed through winds of 50 to 60 miles an hour and extremely rough seas for seven hours ending at 10 p. m. last night.

A Navy hurricane hunter plane has been sent to investigate.

Woman Ridden With Cancer to Get Her Wish — Citizenship

Chicago, Aug. 31 (AP)—Mrs. Antoinette Blatnick, 66-year-old widow who is near death from cancer, is to get her wish that she become an American citizen before she dies.

Federal Judge Walter L. LaBuy on Thursday is to visit the home of Mrs. Blatnick, who is bedridden, to administer to her the oath of citizenship.

Mrs. Blatnick, the mother of eight children, was born in Yugoslavia and came to the United States in 1903. Last January she filed her formal application for citizenship after completing the educational requirements and is eligible to appear in court to take the oath.

Police Probe Death Of Ziegfeld Beauty

Los Angeles, Aug. 31 (AP)—Police have begun a probe into the death last Wednesday of Helen Lee Worthing, one-time Ziegfeld Follies beauty. An autopsy yesterday disclosed that her death was caused by barbiturate poisoning, possibly sleeping pills.

An investigation was ordered and Lieut. C. C. Forbes of the Hollywood police took charge. He said the former actress probably was not a suicide and that it is possible she took an overdose of sleeping tablets accidentally.

CAPTAIN PLAUNT DIES

Cheboygan, Mich., Aug. 31 (AP)—Capt. Charles Plaunt, 66-year-old ferryboat skipper and one of northern Michigan's most colorful figures, died yesterday. Death was caused by cancer. He had been hospitalized here four times in the last two years.

Airborne Magnetometer Detects Oil Formations

Westchester County Airport, N. Y. (SS)—The inner workings of the wartime "doodlebug" pest to German U-boats in the Atlantic were revealed here by the Gulf Oil Corporation to a group of science writers. Its application to oil surveys was also demonstrated.

Its proper name is the magnetometer. It is a device housed in a bomblike structure which is trailed behind and below an airplane. Its delicate magnetic instrument reacts to magnetic influence below, even to a submarine concealed deep in the ocean. It was used during the war, and, since, to locate hidden iron ore deposits. Its greatest use today is in the search for petroleum, even oil under swamps and in the ocean bed.

It has already been used in many surveys for oil, including an 85,000-square-mile area of the continental shelf in the region of the Bahamas islands where other scientists, working under grant diving bells, used gravity methods. The magnetometer method is now being used to explore a great tract in Africa with American planes and American instruments. Many other surveys have been made over dry land and almost inaccessible swamps. One great value of the magnetometer is its ability to survey hard-to-get-at areas, and do it with great speed.

The magnetometer reacts to the earth's magnetism in addition to iron and steel objects and to deposits of magnetic ore. As explained by Gulf scientists, the earth's magnetic field varies in intensity. The variation of importance in oil explorations are those caused by differences in composition and proximity to the surface of the magnetic igneous rocks which comprise the underlying or basement rock found in all areas.

When the structural configuration, or form, of these basement rocks is such as to bring them relatively close to the surface, a magnetically high area will be indicated by the instruments. Thus, by the variation in these magnetic measurements the geophysicists secure information which permits them to make a contour map, which shows variations in the composition and structure of the earth's basement rock.

The overlying sedimentary rock may reflect a similar configuration, which can indicate the existence of geological conditions permitting the accumulation of oil.

The heart of the magnetometer is a magnetically sensitive element about the size of a cigarette. Its findings are transmitted to the instrument in the plane through the trailing cable. The airborne magnetometer's success is due in large part to its ability automatically to orient itself at all times so that it is in perfect alignment with the earth's magnetic field.

Betty Maynard
Becomes Bride Of
Ernest Kralik

St. Francis de Sales church, its altars decorated with baskets of varicolored flowers, was the scene on Saturday, August 28 of the wedding of Miss Betty Maynard of Manistique, and Ernest Kralik, son of Mr. and Mrs. George Kralik, Alger avenue. The vows were exchanged before the Rev. Fr. B. J. P. Schevers at an 8 o'clock nuptial high mass.

The bride was attired in a gray suit with gray accessories, and wore a corsage of white gardenias and sweet peas. Her maid of honor, Miss Ethel Kralik, sister of the bridegroom, wore a green suit with brown accessories. Miss Dawn Maynard, sister of the bride and bridesmaid, wore a brown suit with matching accessories. The attendants wore corsages similar to that of the bride. Kenneth Weber served as best man and Ted Kralik, brother of the bridegroom, was the usher.

For her daughter's wedding, Mrs. Maynard wore a gold dress and brown accessories. Mrs. Kralik wore a print dress with brown accessories. They were gardenia corsages.

A wedding breakfast, followed by a reception in the evening, was held at the home of the bridegroom's parents. White tapers and the wedding cake decorated the table.

Mr. and Mrs. Kralik will make their home in Manistique where the bride is employed at the telephone office and the bridegroom at Inland Lime and Stone Co.

Out-of-town guests at the wedding were: Mrs. Maynard, Joyce Williams, and Miss Dawn Maynard, Escanaba; Mrs. Emily Lait and daughter Mary, Mrs. John Kralik and son, Doris, and Miss Ethel Kralik all of Chicago.

Pat LaFave Lands
Lands Huge SM Bass

Pat LaFave, 12 year old son of Mr. and Mrs. Edmund LaFave, 324 Cataragus avenue, isn't sure that he has caught the biggest small mouth bass this season, but he is absolutely certain that the fish he pulled out of Big Bass lake is the most beautiful. The fish weighed 4 pounds, 8 ounces.

Pat admits that the fish gave him an awful tussle and he was afraid for a while that it would get away, but he simply couldn't let anything like that happen. He had his dad's rod and tackle. Maybe some adult has caught a larger fish of this species this season, but for a youngster that's probably a record for these parts.

FIRE FIGHTING
SCHOOL PLANNEDTwo Weeks Course To
Be Given

Members of the Manistique volunteer fire department will receive special training in the course of the next two weeks.

Wallace F. Gannon, at the request of Fire Chief Elmer Baul and Norman Martin, insurance underwriter arrived here the first of the week and each evening for the next two weeks will instruct and drill those present in certain phases of fire fighting. The instruction and lectures will be in the firemen's club room. Special outdoor demonstrations will be at designated places. Each evening's session will begin at seven o'clock and last until ten.

Mr. Gannon, who comes under the auspices of the University of Michigan Extension service, was a member of the Muskegon Fire department for 23 years and battalion chief for the past four years. In 1946 he left the department to take up his present work. Much of his time has been spent in teaching volunteer fire departments. He has trained over forty departments in the past year and one-half. Last year he trained the departments of Houghton, Hancock, Laurium, South Range, Chassell, Quincy, Atlantic, Huron, L'Anse and Baraga.

Courses similar to the one to be given here are given each summer at Ann Arbor, but only one or two members of many departments are able to attend.

The following phases of fire fighting and fire control will be made a part of the course here:

1. Ladder evolutions—Ladder carries, proper placing, raising climbing, tying in, hose lines off ladders, rescues with ladders.

2. Hose evolutions. Loads, carries, drags and layouts. Slacking hose lines and sliding hose lines from upper floors.

3. Use of ropes. Various knots used in hoisting ladders, minor equipment, dry and charged hose lines, rescue work with ropes, coiling and dropping ropes and throwing ropes to upper floors.

4. Fire streams. The five fire streams used in the fire service and the fires they are adapted to. How to obtain desirable fire streams with a minimum of danger to the firemen.

5. The use of fog in fire fighting. It is planned to have several very impressive outside demonstrations of actual fires in flammable liquids using fog streams as the extinguishing agent. These demonstrations will be announced later and the public will be welcome to attend.

6. Inspection practices in the smaller fire department. Fire prevention work and actual inspections of buildings as a help in fire prevention and fire control.

7. Ventilation. Opening up a fire building to allow the heat and smoke to dissipate to the outer air so that the fireman may enter with his hose lines to extinguish fire or for faster entry into the building for rescue work.

8. Fundamentals of fire fighting and fire control, or short cuts in fire fighting that were learned the hard way, through experiences.

9. Use of gas masks in the fire service.

John's Party

Johnny Greenwood, son of Mr. and Mrs. Russell Greenwood, Main street was honored at a birthday party last Friday afternoon, on the lawn, at the home of Mr. and Mrs. Clifford Cool.

The children enjoyed games, and prizes were won by Joe Greenwood and Billy Sheahan.

The luncheon table was prettily decorated, and centered with the birthday cake. Johnny received many gifts. Guests at the party were Judy Kennedy, Laura Ann Parker, Johnny Moffat, Billy Sheahan, Joe Greenwood, and Clifford Cool, Jr.

Mission Circle

The Mission Circle of the Bethel Baptist church held their monthly meeting recently in the church parlors. The meeting opened with scripture, prayer and song in unison. A piano solo was given by Mrs. A. L. Byers, who also gave an interesting talk. Lunch was served later by the hostesses, Mrs. Huldah Blomquist and Mrs. Freda Peterson. Guests at the meeting included Mrs. Everett Larson, Mrs. Mildred Oberg, Mrs. Einar Gustafson, Mrs. Oscar Nelson, Mrs. Oscar Blomquist, and Helen Blomquist.

ROTE SPEAKERTells Of Rule Changes,
Systems In Football

"You've got to have material to produce winning teams," Coach Eldon Keil, Gladstone high school coach told Rotarians yesterday noon at the weekly luncheon meeting at the Yacht club. "Of course a good coach can do more with good material than a poor coach, but no coach, regardless how good, can produce with poor material. It's the boys that make the coach."

Coach Keil explained football rules changes effective this fall, and probable reasons for the changes.

He also gave a chalk talk in which he explained the various duties of each player on defense and on offense.

The two systems most in use by football coaches today, the T-formation, and the single wing were explained by the local men and he diagrammed plays run from both formations. The speaker said it was his belief that T-formation was weak on wide plays although the man in motion used in connection with it had a tendency to loosen up the defense to some extent.

Keil described the operation of Michigan's offense last fall and declared that the ball handling was so clever and the faking so deceptive that even competent observers of football and officials were mistaken at times as to where the play was going and who had the ball.

He fainted, patrolman Clifton E. Sloan said, while police arranged for an ambulance.

Revised, the man was so distraught Sloan decided to take him to the hospital, too. On the way he fainted twice.

A baby daughter was born to the couple, All were reported doing nicely.

GRADUATE NURSE — R. June VanDeWeghe, who was graduated from the School of Nursing at Michael Reese Hospital in Chicago, is now spending a month's vacation with her parents, Mr. and Mrs. Walter VanDeWeghe, in Kipling. Eskymo Reserves Asked To Report At 2 Wednesday

With the varsity gridders working out diligently in preparation for their opening encounter of the 1948 high school football season, the clash with the Sault Ste. Marie Blue Devils here Saturday, Sept. 11, Coach George Ruwitch issued his first call today for reserve candidates to bolster the Eskymo grid squad.

Candidates for the reserve team to be coached by James L. Rouman are asked to report at the high school athletic field at two Wednesday afternoon to procure equipment and take physical examinations.

In all probability, practice will not start until schools opens next week.

Baseball Stars Of Yesterday

Batting: Dixie Walker, Pirates—clouted his second homer of the season with one on in the first inning to lead Pittsburgh to a 2-1 victory over the Boston Braves.

Pitching: Frank Shea, Yankees—pitched the best game of his major league career in stopping Detroit, 3-0, on one hit for the Yankees. A single by opposing pitcher Hal Newhouse in the third inning was the lone safety off Shea.

USS Michigan Is Granted Reprieve

Detroit (AP)—The USS Michigan has a reprieve until at least Oct. 1.

A group seeking to save the 105-year-old vessel from the scrap heap announced an agreement had been reached with Erie, Pa., authorities to suspend action until that date.

By then, the Save The Michigan Committee hopes to have raised sufficient funds to float and tow the old ship to a permanent berth in Michigan.

The Erie officials acted favorably on a request from Capt. Leon J. Jacobi, chairman of the committee, on the eve of signing papers that would have consigned the Navy's first iron-hulled fighting ship to a wrecking company that wanted her for scrap.

Bums Dump Cards Twice To Stretch Lead

One-Hit Masterpiece By Shea Tames Tiges As Yanks Win By 3-0

Boston, Aug. 31 (AP)—The Detroit Tigers moved here today to take on the league-leading Boston Red Sox after being the victims of a masterful one-hit pitching performance by Frank Shea and a 3-0 setback by the New York Yankees last night.

The Tigers' one hit was by Pitcher Hal Newhouse, who was charged with his 11th loss against 15 wins.

Hal's sole consolation of the evening was that he spoiled Shea's bid for a no-hitter. He did it in the third with one out when he singled cleanly to center.

The only other Tiger to get on base was Hoot Evers who walked in the second. But like Newhouse, he stayed at first.

Shea, the Yankees' No. 1 hurler last year, certainly didn't resemble the pitcher who had won only six and lost 10 before last night. He retired the last 20 Tigers in order.

All the scoring came in the first inning. George Stinewiss opened with a single. Tommy Henrich walked and Johnny Lindell forced Henrich.

Jolting Joe DiMaggio then shot a single to left, scoring Stinewiss. On the throw to third, DiMaggio took second.

Yogi Berra singled to center and the score was 3 to 0.

Cuff notes: The Escanaba Bears have officially bowed out of any consideration for the southern division championship of the Rainbow League, and the official inter-division playoff will get underway in Munising next Sunday afternoon with Gladstone representing the south.

6 Former Champions In National Amateur

Memphis, Tenn., Aug. 31 (AP)—Old Man Pressure and a wobbly, Bermuda-greened course appeared as major factors to the 128 players in the second round of the National Amateur golf tournament today.

Six former champions and practically all of the other highly regarded stars remained in the running.

Fewer than a dozen players involved in the eighty-two first round matches could look back to sub par performances on the 6,617 yard par 70 Memphis Country club course.

Frank Stranahan, the muscular man from Toledo, Ohio, who is seeking to add the American Amateur crown to his British and Canadian prizes, had the easiest go of any of the hotshots and was paired today against Charles Dudley of Greenville, S. C.

Stranahan eliminated the veteran Frank Strafaci, five-time metropolitan champion from Flushing, N. Y., 4 and 3. Dudley eased by Hiram Chamberlain of Lookout Mountain, Tenn., 2 and 1.

The colorful defending champion Robert (Skee) Riegel, who has Robert Clark of Edgewater, Colo., to deal with in the second round, eliminated Richard Evert 1-up when the Santa Ana entry failed by a break of the ball to sink a short putt on the eighteenth green.

Marvin (Bud) Ward of Spokane, Wash., Willie Turnesa of Elmsford, N. Y., 58-year-old Charles (Chick) Evans of Chicago, Stanley (Ted) Bishop of Islington, Mass., and Richard Chapman of Pinehurst, N. C., each a former National champ, also continued as threats.

Ten members of the All-America Conference Champion Cleveland Browns played their college football for Ohio State. Coach Paul Brown is an ex-Ohio State coach.

Two brothers—Bill and Charley Fleming of Pinehurst, N. C.—wound up a photo finish in a harness race for two-year-old trotters recently. Bill, driving Brewaway, won.

Softball Season At Manistique Winds Up Tonight

Manistique, Aug. 31 — The once defeated Fords managed by Len Courmay will meet the Liberty Loans for the city championship at 6:30 this evening. The Fords won the city league season round-robin for the second consecutive year.

The strong Liberty Loan team, under the direction of A. J. Robertson, are confident that they can win. The comparison between the two teams leaves the edge to the Fords but Robertson's men have improved steadily. Both teams will be at full strength for the finale.

Alex Creighton's warriors are Len Courmay, Al Helsten, Ted Hentschell, Robert Brouillier, Ben Helsten, Pete Gorsche, Jim Cody, Addie Boyd, Fricky Lesica, and Seb Lamuth.

Liberty Loans feature A. J. Robertson, the Holm brothers Jim and Orvis, Josh Oberg, Bud Christensen, Bob Barnes, Larry Rushford, Chuck Wingard, Kralick, Molly Anderson, and Clark.

A beautiful team trophy will be awarded the winning team and individual medals to members of the winning combination.

Bill Veeck, Jr. Is Shrewdest Of Them All

By Gayle Talbot (For Hugh Fullerton Jr.)

New York City, (AP)—There no longer is any doubt that Bill Veeck Jr. of the Cleveland Indians is the smartest executive to hit big league baseball since Larry MacPhail invented electric lights, and you can't even be sure that he isn't smarter than Larry.

He's close to being remarkable, this young fellow of the crew haircut and open-necked sports shirts. The writer is speaking with the respect of one who made a wager last spring that the Indians would not finish as good as second in the present American league race.

In a few short years, Veeck has transformed the Cleveland club from an annual disappointment into a colorful, hustling outfit which seems to break some sort of attendance record every time it plays in huge Municipal stadium.

If the Indians should win the flag—their first since 1920—it will be solely because of the smart deals Veeck has made in the past two years, the winning gambles he has taken, and the great spirit he has instilled. He hasn't made a real mistake yet.

It was less than two years ago, during the '46 world series, that Bill first gave the experts a hotfoot by trading Allie Reynolds, one of the American league's top pitchers, to the Yankees for Joe Gordon, who had stumbled through two miserable post-war seasons.

As it turned out, the shift of scenery was all Gordon needed to make him again just about the finest second-base man in the game. In Gordon and Lou Boudreau the Indians today have the slickest keystone duo in business. The deal was typical of the foresight Veeck has displayed in every move he has made.

When Cincinnati turned Bill McKechnie loose as manager, Veeck grabbed him as a coach for the Indians. Similarly, he nabbed the capable Muddy Ruel last winter when the St. Louis Browns had their convulsion.

There seemed to be a lot of very high-priced coaches around the Cleveland training camp at Tuscon last March. Some wondered how Veeck would meet his payroll, but they needn't have worried. Bill has supplied the crowds by beating the bushes throughout Ohio, and McKechnie and Ruel probably have given the Indians the finest coaching in either league.

For one thing, McKechnie changed Larry Doby, the Negro rookie, from an indifferent infielder to a capable outfielder who has played a big part in the club's pennant drive. If Bill had done nothing else, that would have taken care of his salary.

The signing of Satchel Paige, ageless Negro pitcher, probably will go down as Veeck's masterpiece. Old Satch was there for anybody to grab, but it was Veeck who gambled \$55,000 that the veteran could help the Indians.

Sister at 340
St. Louis—George Sisler, famous infielder, had a 340 batting average in 2,065 games.

Reserves Pay Off For Burt's Busy Dodgers

They Spark 4-Run Rally To Win In Ninth

By Ralph Roden

Associated Press Sports Writer
"Bench Strength," that's one of the reasons Burt Shotton's ferocious gentlemen lead the National league today.

Shotton's front-running Dodgers are deep in reserves and the canny Brook pilot is employing his substitutes to the utmost advantage in his bid to bring the pennant to Brooklyn for the second consecutive year.

Second stringers enjoyed a field day at the expense of the St. Louis Cardinals yesterday as the Dodgers took a doubleheader, 6-5 and 6-1, to increase their lead to a game and a half over the runner-up Boston Braves.

Trailing, 5-2, going into the ninth inning of the first game before 33,508 fans, the reserves swung into action and sparked a four-run rally that enabled the Brooks to win.

Bucs Are Dangerous

The Dodgers didn't have to call for help in the second game as Lefty Joe Hatten held the Cards to five hits in racking up his 11th victory.

Hatten yielded a run in the second inning, but the Dodgers quickly snarled the count in the third and took the lead for good with another run in the fourth when Hatten singled home Roy Campanella from second. They clinched the game with two more runs in the sixth off starting and losing pitcher Ken Gindus.

The setbacks dumped the Cards into fourth place, two percentage points behind the Pittsburgh Pirates who moved into third as a result of their 2-1 triumph over the Boston Braves in a night game at Pittsburgh.

Two former Dodgers, Dixie Walker, one time darling of Flatbush followers, and pitcher Fritz Ostermuller teamed up to beat the Braves, who now have lost six of their last seven starts.

Walker drove in both Pittsburgh runs when he clouted his second homer of the season with Danny Murtaugh on base in the first inning. Murtaugh got on via a single to stretch his consecutive game hitting streak to 17.

The Pirates, who have won 18 out of their last 26 games are three and a half games off the pace, the same distance as the Cardinals.

Satchel Does It

Only three and a half games also separate the top four teams in the American league's pennant chase.

Motorists Warned Not To Make Labor Day A 'Last Fling'

Take it easy over the Labor Day weekend and your "last fling" at the summertime vacation season will not be the last you will ever enjoy, traffic law enforcement officials today warned motorists.

The warning is in advance of an anticipated surge of holiday traffic similar to that of Labor Day last year, when 18 persons lost their lives in Michigan traffic and countless more were injured or inconvenienced in non-fatal accidents.

Six suggestions have been listed to insure a safe and sane motor holiday:

1. Don't weave in and out of traffic. Maintain a steady driving pace without excessive speed or racing spurts in traffic.
2. Don't drive on wrong side of road. Keep to right at all times.
3. Don't pass on hills, curves or at street intersections.
4. Get an early start, going and coming, to avoid tension in crowded traffic. Rest when necessary to overcome fatigue.
5. Slow down at sundown; don't overdrive your headlights.
6. Watch for cars coming out of side roads, particularly after dusk and obey all traffic signs calling for a "full stop."

Schaffer

Birthday Party

Schaffer, Mich. — Charlene Tousignant, daughter of Mr. and Mrs. Tom Tousignant, was hostess to a group of 14 girl friends Saturday afternoon, August 28, the occasion being her fourteenth birthday anniversary. An enjoyable afternoon of playing buncos was enjoyed by all, with prizes awarded to winners. Lois Jean Martin won guest prize. A tasty luncheon was served by Mrs. Tousignant with a large pink and white birthday cake centering the luncheon table. Charlene received many nice gifts. Out of town guest was Gloria Taylor of Escanaba.
